

MIKRON WOOD

Covering the windows of Australia

The look of real timber with more durability & flexibility.

MIKRON WOOD™ delivers an exciting new dimension to Composite Timber Venetian Blinds. The composite used in these blinds is widely used across the USA.

Tested by weather extremes as window and door frames as well as outdoor decking, this product provides a level of toughness not previously seen in the Composite Blind Market.

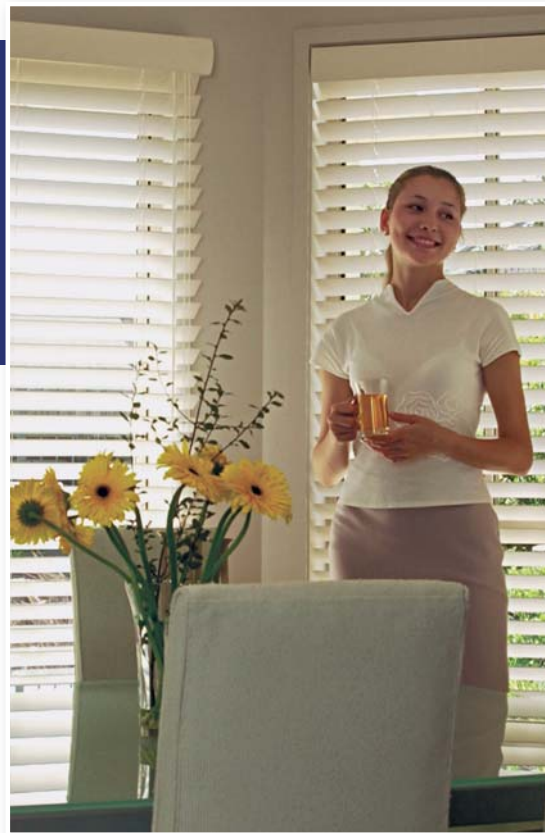

The SuperCap™ tough bonded surface offers standout quality and durability.

Choose the best features of Timber and Vinyl and MIKRONWOOD™ is the answer.

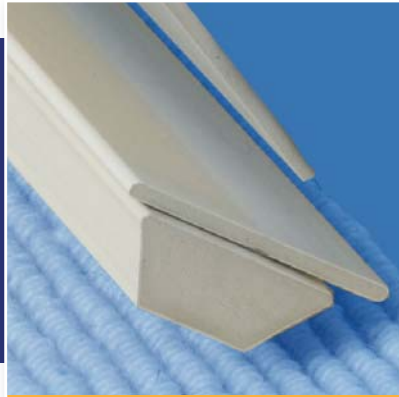

An impressive tally of features make MIKRONWOOD™ your obvious choice.

- Stable in high heat, suitable for most conditions.
- Excellent Insulator, Scratch, Peel and Fade resistant.
- Superior Dimensional Stability.
- Bonded laminate will not peel or delaminate from high temperatures or prolonged sun exposure.
- Heat reflecting pigments make darker colours reliable.
