

# Automatic Awning

Automatic Roll Up Awnings are the most popular awning providing a cost effective shade solution for ground floor windows, patio and balcony applications. Minimal projection can be achieved to minimise space. Easy to use self locking arms enable easy operation by hand or pull stick. Sunlight Products sources an extensive range of Fabrics from all of the major Fabric Suppliers to the awning industry. An optional awning hood is available in a decorator range of colours, complementing the overall appearance of the awning as well as helping to protect the fabric when the awning is not in use.
