

Fixed Guide Awning

Fixed Guide Roll Up Awnings are recommended as a cost effective shade solution for high windows where the bottom of the window is more than 2 metres from the ground. From the street, the Fixed Guide Awning has a similar appearance to an Automatic Awning, however it is operated by a cord down the wall, tied off to a cleat; or externally or internally operated with a winch. Sunlight Products sources an extensive range of Fabrics from all of the major Fabric Suppliers to the awning industry. An optional awning hood is available in a decorator range of colours, complementing the overall appearance of the awning as well as helping to protect the fabric when the awning is not in use.

Available Sizes

Width:

Maximum Width – 4200mm

Minimum Width – 600mm

Drop:

Maximum Drop – 2700mm

Minimum Drop – 600mm
