

# Galaxy Cellular Blind

GALAXY cellular pleated blinds provide gently filtered light without sacrificing your privacy. Available in translucent fabric or metalised blackout fabric, GALAXY is efficient in blocking out light, heat and cold. The distinctive honeycomb pleat creates air pockets which act as insulators, keeping your home warm in winter and cool in summer. The white reflective backing reflects external solar heat, aiding the insulation process. GALAXY is the revolutionary blind that will reduce energy bills.
